TO: Members of the Iowa Senate and

Members of the Iowa House of Representatives

FROM: Dennis C. Prouty DATE: April 1, 2008

## Monthly General Fund Receipts through March 31, 2008

The attached spreadsheet presents year-to-date FY 2008 General Fund receipts with comparable figures for actual FY 2007. The figures can be compared to the FY 2008 estimate of \$6.563 billion set by the Revenue Estimating Conference (REC) on December 11, 2007. The FY 2008 estimate is an increase of \$424.6 million (6.9%) compared to actual FY 2007 gross cash receipts (excludes refunds, transfers, and accrued revenue adjustments). The next REC meeting is scheduled for April 4, 2008.

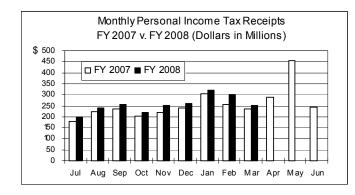

### FY 2008 Compared to FY 2007

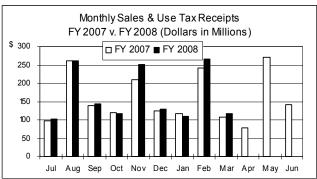

Fiscal year to date total gross cash receipts increased \$457.9 million (10.6%) compared to FY 2007. Major revenue sources contributing to the change include:

- Personal Income Tax (positive \$202.3 million, 9.6%)
- Sales/Use Tax (positive \$74.8 million, 5.3%)
- Corporate Tax (positive \$43.2 million, 15.8%)
- Other taxes (positive \$105.0 million, 44.2%)
- Other receipts (positive \$32.6 million, 12.2%)

**Personal Income Tax** revenues received in March totaled \$253.5 million, an increase of \$18.2 million (7.7%) compared to March 2007.

The FY 2008 REC Income Tax estimate of \$3.293 billion represents a projected increase of 6.7% compared to actual FY 2007. Year-to-date, total Income Tax receipts increased 9.6%. By subcategory, withholding payments increased \$128.2 million (7.3%), estimate payments increased \$42.9 million (16.1%), and payments with returns increased \$31.2 million (41.1%). The following chart compares FY 2008 monthly Income Tax receipts from the three Personal Income Tax subcategories with FY 2007.

**Sales/Use Tax** receipts received in March totaled \$117.3 million, an increase of \$9.9 million (9.2%) compared to March 2007.

The REC estimate for FY 2008 Sales/Use Tax receipts is \$1.963 billion, an increase of 2.8% compared to actual FY 2007. Through March, FY 2008 Sales/Use Tax receipts have increased 5.3%. The preceding chart compares FY 2008 monthly Sales/Use Tax receipts with FY 2007.

**Corporate Tax** receipts received in March totaled \$29.9 million, a decrease of \$6.0 million (-16.7%) compared to March 2007.

The REC estimate for FY 2008 Corporate Tax revenue is \$447.0 million, an increase of 5.3% compared to actual FY 2007. Through March, FY 2008 Corporate Tax receipts have increased 15.8%.

**Other tax** receipts received in March totaled \$36.3 million, a \$4.4 million (13.8%) increase compared to March 2007. Cigarette and Tobacco taxes contributed \$5.2 million to the increase, due to the mid-March 2007 Cigarette and Tobacco Tax rate changes. The REC estimate for other tax receipts is \$499.8 million, an increase of 37.3% compared to actual FY 2007. Through March, FY 2008 other tax receipts have increased 44.2%.

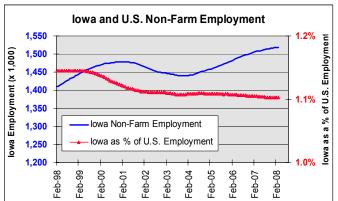

**Other receipts** (non-tax receipts) received in March totaled \$27.9 million, an increase of \$1.8 million (6.9%) compared to March 2007. Judicial Revenue accounted for much of the growth for the month. Interest and fee deposits decreased for the month.

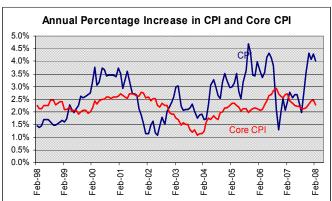

The REC estimate for FY 2008 other receipt revenue is \$359.6 million, an increase of 1.7% compared to actual FY 2007. Through March, other receipts increased 12.2%.

#### Status of the Economy

Iowa non-farm employment was reported at 1,497,500 for the month of February (not seasonally adjusted), 11,800 higher (0.8%) than February 2007.

Iowa's 12-month moving average employment is presented in a graph below. The average non-farm employment pre-recession peak was February 2001 (1,478,700), and the recession low was September 2003 (1,439,900). The current average reading is now 1,522,400 so annualized Iowa non-farm employment is 43,700 above its 2001 peak and 82,500 above the 2003 low. The chart below also presents Iowa non-farm employment as a percent of U.S. non-farm employment. Iowa's share of national non-farm employment decreased noticeably from 1998 through 2002. The decline has slowed considerably since early 2002 but the trend remains negative.

Consumer prices increased 0.3% during February (not seasonally adjusted), slightly below the January increase of 0.5%. The Consumer Price Index (CPI-U) through February 2008 was 211.7 (1983/84=100). The year-over-year change of 4.0% in February is the fourth straight month of at least 4.0%. The overall inflation rate has generally increased since mid-2004, when the price of oil and other commodities started to rise significantly.

Core CPI, an inflation measure that excludes food and energy prices, increased in January and now stands at 2.3%. The core inflation rate declined considerably from the early 1990's through March 2004. From March 2004 through September 2006, inflation as measured by core CPI more than doubled, peaking at 2.9%. For the two components excluded from the core rate, energy prices, despite a slight monthly decrease, are up 18.9% year-over-year and food prices are up 4.5% year-over-year.

Information related to State General Fund receipts is available on the Fiscal Services Division's web site at: <a href="http://staffweb.legis.state.ia.us/lfb/receipts/daily.html">http://staffweb.legis.state.ia.us/lfb/receipts/daily.html</a>.
